

I decided to write a story about a group of individuals who live together and they are planning what they will be eating for dinner, I will brightly mention entrenched powers in the price increase within the food industry.

			
<p>John: “What do you guys want to eat tonight?”</p>	<p>Heather: “It doesn’t matter to me.. I have my dessert ready but it is a surprise.”</p>	<p>Ben: “Anything with meat is a must for my diet.. GOTTA GET THESE GAINS.”</p>	<p>Jennifer: “Yeah, I think we should make some burgers with fries or a barbecue.”</p>

			
<p>Tim: “but I don’t feel like cooking or cleaning today, come on it’s a MONDAAAY” Tim proceeds by turning on the tv*</p>	<p>*The television turns on and it’s on the news channel and Tim realized that they were talking about the increase of prices throughout the food industry.*  Tim: “EVERYONE</p>	<p>News Host on TV: “.. was the average price in March 2020. Furthermore, the USDA reports show that groceries are expected to increase 1-2% and fast food prices are expected to increase between 2-3%</p>	<p>*Tim turns off the tv and everyone stares at each other*</p>

	SHUT UP.”	in 2021 starting today.

<p>Jennifer: “Wait where’s Heather?”</p>	<p>Heather: “... at least we have my decadent, moist, chocolate cake with creamy chocolate frosting since we can’t afford to eat out or buy groceries.”</p>	<p>*John and Tim raced towards Heather to get a slice of cake*</p>	<p>Ben: “Jennifer, I guess we should join them before they eat it all and we end up eating nothing..”</p> <p>*END OF SCENE*</p>
